

Students and Staff are committed to character education at Port Weller School. A team of Grade Eight Students have joined together to form the Character Ed. Crew. These students are responsible for educating younger students about the Character Traits that represent our school. The students have each taken an alias that unites our crew members with superhero/character traits. In September we met Respectacular Man. His character trait was respect. All Port Weller Students participated in classroom activities to foster and develop their understanding of respectful behaviour. In October we met the Responsibility Ranger. The Character Ed. Crew engage in lively morning announcements and have completed a riddle challenge to encourage students to familiarize themselves with the upcoming traits. The inclusion of Super Hero Characters makes this form of education appealing to many students. The Character Ed. Crew is responsible for selecting a community charity that will benefit from some of our school fundraising. The Character Ed. Crew are developing and role-modeling leadership qualities throughout the school. In November and December students will study Integrity. Throughout the year we will also learn about Caring, Optimism, Co-operation, Perseverance, and Courage.
